

REMARKS

Claims 1-25 are pending and under consideration.

The rejection based on KR '409 is respectfully traversed.

Independent claim 1 (used herein as an example) recites a first supporter having a non-cylindrical cross section and a second supporter having a non-cylindrical cross section. In contrast, elements 26, 29, 126, 129, have circular cross sections. KR '409, FIGS. 2 and 3. Since a cylinder may have a circular cross section (see the attached excerpt from *dictionary.com*), these elements are not non-cylindrical, as claimed.

Claim 5 depends from claim 1 and recites a first insertion limiting part having a diameter greater than that of the first engaging shaft and the first supporting shaft. In contrast, elements 29 and 126 of KR '409 have constant diameters. Element 28 has a smaller diameter than element 26, and element 129 has a similar structure to elements 28 and 26. KR' 409, FIGS. 2 and 3.

Claim 13 depends from claim 1 and recites that the first engaging shaft has a polygonal cross section. In contrast, KR '409 discloses circular cross sections for elements 26, 29, 126 and 129. KR '409, FIGS. 2 and 3.

The rejection based on KR '188 is respectfully traversed.

Independent claim 1 (used herein as an example) recites a first supporter having a non-cylindrical cross section and a second supporter having a non-cylindrical cross section. In contrast, FIGS. 12a and 12b of KR '188 illustrate a circular cross section. The Examiner's attention is also drawn to the features of dependent claims 5 and 13, which are also not disclosed in KR '188.

Accordingly, withdrawal of the rejections is requested.

There being no further outstanding objections or rejections, it is submitted that the application is in condition for allowance. An early action to that effect is courteously solicited.

Finally, if there are any formal matters remaining after this response, the Examiner is requested to telephone the undersigned to attend to these matters.

Serial No. 10/805,339

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
